

MEASUREMENT FORM

PRECISE MEASUREMENTS WILL GURANTEE THE PERFECT FIT WE ARE STRIVING. We strongly advise having a professional seamstress measure you! We also advise being measured in the proper undergarments and the type shoes you plan to wear.

Please list the specified measurements in "inches" in the spaces provided. (Use a tape measure please!)

1. **NECK:** Measure circumference around the base of neck.
2. **SHOULDER:** Measure along shoulder from base of neck to shoulder bone.
3. **BUST:** Measure bust at fullest point with tape straight across back.
4. **WAIST:** Tie string around torso at the thinnest part; measure at the line.
5. **HIP:** Measure hip at fullest point; generally: 7 to 9" (18 to 23 cm) below the waistline.
6. **THIGH CIRCUMFERENCE:** Measure thigh at fullest point; this measurement is important when fitting pants.
7. **FRONT NECK TO WAIST:** Measure from base of neck (the hollow between collar bones) to waist at center front.
8. **BACK WIDTH:** Measure from prominent neck bone down center back (4 to 6 inches) (10 to 15 cm). At this point, measure across the back, with arms moderately forward, from the crease where arm meets body to the opposite crease.
9. **BICEP:** Measure at fullest part of upper arm, usually (1" or 2.5 cm) below armpit.
10. **ARM LENGHT:** With arm slightly bent, measure from shoulder bone to elbow, and then to wrist above the little finger. Add the two measurements.
11. **WRIST:** Measure circumference at wrist bone.
12. **PANTS LENGHT:** Measure at side from waist to floor, or to desired length.
13. **BACK NECK TO WAIST:** Measure from prominent neck bone at center to waist.
14. **SKIRT LENGTH:** Measure from center back waist to desired hemline.
